BURLINGTON STONE

EST 1843

Whatever the scale of your vision or project, from Lakeland cottage gardens to award winning RHS Chelsea Flower Show designs, you can trust Burlington to truly inspire you.

Its unique properties have been formed deep within the Cumbrian Fells – so it's dramatic, beautiful and made to last. For almost two centuries, Burlington has been the stone of choice for bespoke, high quality and distinctive landscapes.

Its intrinsic qualities and colours have been used to create inspirational living spaces that seamlessly connect the indoor and outdoor environments.

Decorative aggregate, lawn edging and walling
