Kirkby flamed textured flooring

Baycliff Limestone paving flamed finish

Broughton Moor exterior cladding

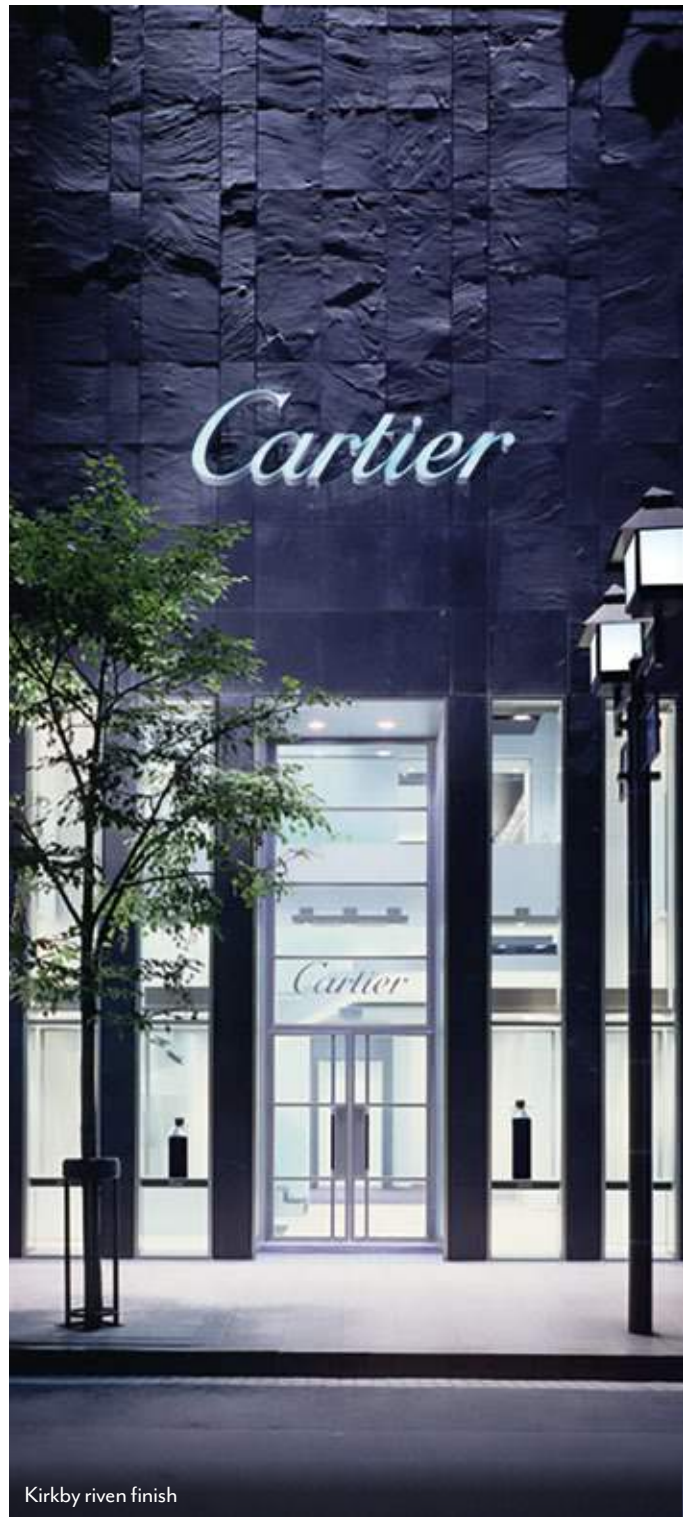

Broughton Moor flametextured pool decking and honed pool lining

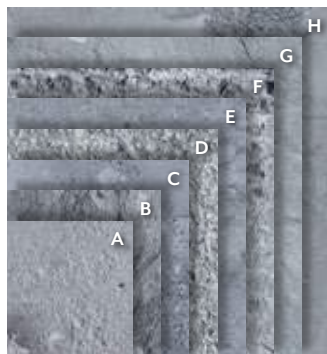

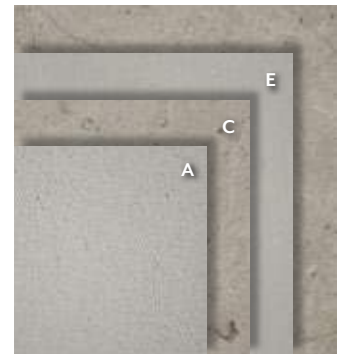

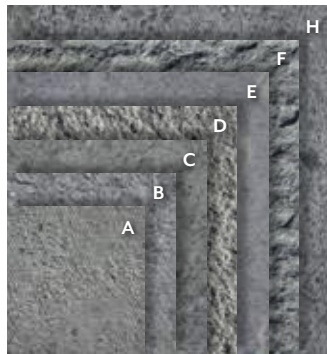

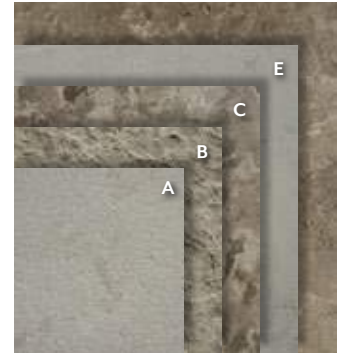

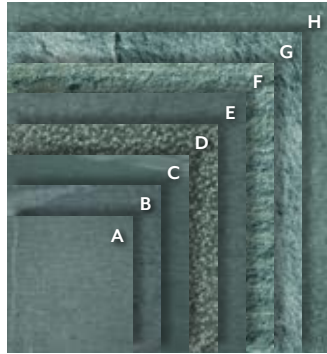

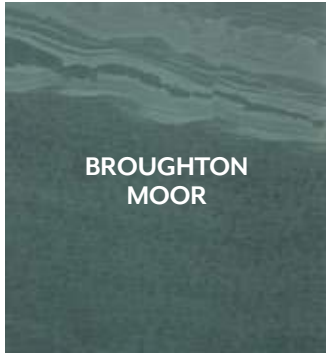

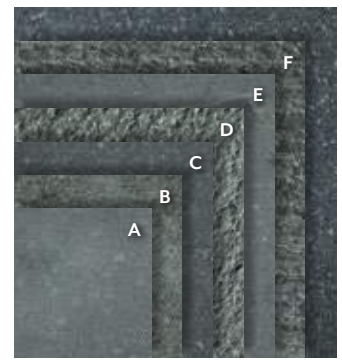

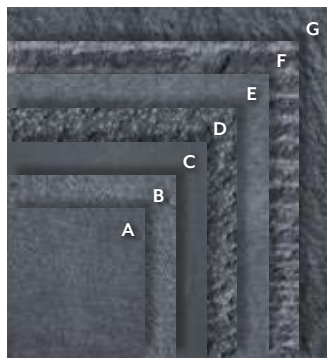

Broughton Moor honed flooring

Kirkby flametextured flooring and Brossen Stone riven wall lining

Kirkby riven finish

- A: GRITBLASTED**  
A high-pressure airline projects coarse-grained abrasives, giving a regular non slip finish.
- B: FLAMED TEXTURED**  
Heat and water combine to achieve a regular textured finish.
- C: HONED**  
A smooth finish with a slight sheen, produced by using a polishing head.
- D: SPOT TEXTURED**  
The top surfaces of sawn slabs are pneumatically tooled to produce a pitted surface.
- E: SANDED**  
The top surfaces of sawn slabs are coarsely diamond sanded to produce a non slip finish.
- F: LINE TEXTURED**  
The top surfaces of sawn slabs are pneumatically tooled to produce a grooved surface.
- G: RIVEN**  
A finish in which the stone is split along its natural cleavage plane.
- H: WATERJET**  
A similar finish to honed but with greater slip-resistance.
- J: POLISHED**  
A smooth high gloss finish, produced by using a polishing head. For limestone only.
