Terrazzo is a beautiful and highly versatile material that has been used for flooring since Roman times and can be moulded into almost any shape.

Terrazzo tiles and Terrazzo flooring is used throughout the world and enjoys an enviable reputation due to its combination of durability, ease of maintenance, beauty and performance. There is in excess of 20 million square metres of terrazzo flooring in the UK today.

The Burlington Terrazzo range brings the beauty of our stone in a sustainable and more cost effective format for larger spaces complementing our traditional paving and tile ranges.
